## EXPERIENCE

### React Native Engineer

#### EventsSmarter

04/2022 Orlando, FL

- Designed and deployed user-centric features, increasing engagement by 20% and conversion rates by 15%
- Streamlined deployment processes with cross-functional teams, improving efficiency by 25%
- Integrated 5 third-party APIs, including Stripe and Mapbox, to broaden application capabilities
- Implemented Agile Scrum practices, achieving 95% on-time task completion and reducing cycle times by 30%
- Engineered seamless app releases, reducing post-launch defects by 40%
- Architected a software solution handling over 5 million transactions per month

### Senior Mobile Developer

#### Founders First System

02/2021 - 03/2022 Boulder, CO

- Developed a functional MVP within 3 months, accelerating client approval and market validation
- Engineered React Native applications, increasing user satisfaction scores by 30%
- Optimized Firebase performance tools, improving load times by 20% and elevating user satisfaction
- Reduced production bugs by 20% through clean coding practices and regular code review
- Enhanced application functionality and user experience, resulting in an 18% increase in user retention
- Developed and maintained 12 APIs, supporting multiple front-end applications

### Backend Developer

#### Tech Solutions Inc

08/2019 - 02/2021 Austin, TX

- Optimized database query response times by 40% through advanced indexing and schema refinement
- Developed scalable backend services with Python/Django, supporting 500,000+ monthly active users
- Automated testing frameworks, improving code coverage by 50% and reducing deployment errors
- Designed efficient RESTful API endpoints, enhancing system throughput by 15%
- Delivered 8 cohesive web applications, resulting in a 15% increase in positive user feedback
- Managed data operations involving 10 TB of enterprise data monthly

## EDUCATION

### Bachelor of Science in Computer Science

#### Nevada State University

06/2013 - 11/2017 Henderson

- Relevant coursework: Data Structures & Algorithms, Web Development, Software

## SUMMARY

To leverage my expertise as a React Native Developer in designing scalable, high-performance applications while fostering innovation and team collaboration to drive organizational success.

## CERTIFICATION

**AWS certified developer - associate**  
(completed in 2023)

**Kubernetes' fundamentals certification**  
(completed in 2022)

## SKILLS

Agile Methodologies	API Development		
Automated Testing	AWS		
Code Review	Cypress	Devops	
Django	Docker	Firebase	Flask
Front-end	GCP	Golang	Java
Javascript	Jest	Kubernetes	
Mapbox	Mocha	Mongodb	Node
Node.js	Postgresql	Python	
Reactjs	React Native	Restful	
Restful API	Scrum		

## KEY ACHIEVEMENTS

#### User Engagement Boost

Increased engagement by 20% through new user-centric features.

#### Process Efficiency

Improved deployment efficiency by 25% with streamlined processes.

#### Agile Implementation Success

Achieved 95% on-time task completion using Agile Scrum.

## PROJECTS

### YAVPN

Ultra Fast & No Limit VPN

- Achieved over 1M+ downloads, reflecting widespread user adoption and trust
- Maintained an impressive 4.6-star rating across app stores, based on 17.9k reviews
- Delivered exceptional performance, user experience, and security, establishing the app as a market front-runner

### Ignite-reading Website

EdTech startup

- Enhanced performance by 30% by refactoring project components, resolving frontend and backend bottlenecks
- Successfully transitioned systems, resulting in 8% increase in scalability by implementing best practices

## DAY OF MY LIFE

**Morning:** Start the day with a quick workout or mindfulness routine to energize both body and mind. Review my task list and goals for the day over a cup of coffee.

**Work Hours:** Dive into coding or development projects, focusing on delivering impactful solutions. Attend team stand-ups to align on goals and ensure collaboration.

**Midday:** Take a short break for lunch and catch up on industry news or a tech podcast. Use this time for creative brainstorming or problem-solving.

**Afternoon:** Continue work on key projects, troubleshoot challenges, and engage in learning sessions to upskill in emerging technologies. Wrap up the workday by documenting progress and planning for tomorrow.

**Evening:** Unwind by spending time with family, pursuing hobbies, or learning something new, like reading a book or exploring an online course.

## KEY ACHIEVEMENTS

### Quality Assurance Improvement

Reduced post-launch defects by 40% via seamless app releases.

## PASSIONS

### Continuous Learning

Passionate about staying ahead in tech trends, regularly exploring emerging tools, and reading industry-leading books like Atomic Habits and The Lean Startup

### Creative Problem-Solving

Enjoy experimenting with personal projects, such as developing innovative apps or automating everyday tasks.

### Fitness and Mindfulness

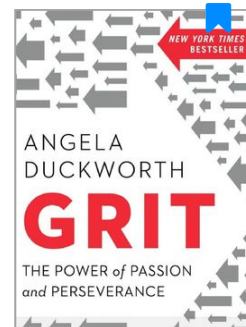

Enthusiastic about maintaining physical and mental well-being through regular workouts, meditation, and mindfulness practices

### Exploring Cultures

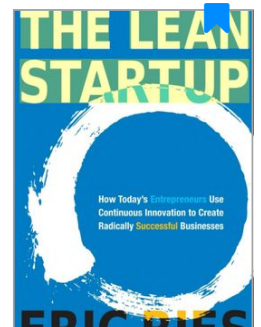

Love traveling to learn about diverse cultures, which enhances my adaptability and creativity in both personal and professional life

## BOOKS

### Grit: The Power of Passion and Perseverance

Angela Duckworth

### The Lean Startup

Eric Ries
